- ◆ **Long Range Planning:**
 - Mr. Regier opened the meeting by reviewing the list of possible facility improvements (broken down by building). He explained that the cost estimates on certain projects were provided by Gravity Works Architecture.
 - Small group discussions were held to decide which 3 things were the most attractive about the Canton Facility. Groups then decided which 3 things they would improve about the facility.
 - Next, groups were asked to review the list of potential facility improvements and make any additions. After the additions, groups ranked the facility improvements in order of importance for each building.
 - After ranking by building, groups ranked the facility improvements in order of importance for the district.
 - Finally groups merged for a whole group discussion regarding the ranking of importance of facility improvements for the district as well as deciding if those improvements should be part of a possible bond issue or paid for using capital outlay funds.
